## PREMIER FRANÇOIS LEGAULT ANNOUNCES THAT THE WATER PROBLEM IN THE VILLAGE OF SAINT-GEORGES-DE-CLARENCEVILLE WILL BE SOLVED

---

**Saint-Georges-de-Clarenceville, July 6, 2022** - This Tuesday, July 5, the Premier of Quebec, Mr. François Legault was in Venice-in-Quebec to introduce the CAQ candidate, Ms. Audrey Bogemans, for the upcoming provincial elections of October 3, 2022.

Taking advantage of the occasion, the mayor, Mr. Serge Beaudoin registered to participate in the event with the objective of meeting the Prime Minister.

It was during this meeting that Mr. Legault accompanied by his ministers introduced and greeted individually all the mayors present from the Haut-Richelieu MRC and by ending with Mr. Serge Beaudoin, the Prime Minister declared: we will solve the water problem in Saint-Georges-de-Clarenceville!

Although this announcement is a good omen and Mr. Beaudoin is very happy, he is not totally satisfied and underlines the fact that no timetable has been given for obtaining the grant. On this subject, the Prime Minister, Mr. François Legault, declared that he was analyzing the fact of granting a subsidy of 80 % depending on the file. It should also be noted that the engineers' strike continues and that this has the effect of slowing down the file.

Nevertheless, Mr. Beaudoin remains positive following the Prime Minister's statement. Moreover, he had the opportunity to hand him a letter to personally inform him of the situation experienced by the citizens of Saint-Georges-de-Clarenceville and to make him aware of the Clarenceville cause.

Clarenceville residents, neighbors, families and friends of other municipalities are encouraged to continue to send the letter available on the [clarenceville.qc.ca](http://clarenceville.qc.ca) website, in the Village Water Project section, to all concerned ministries, to the CAQ candidate, Audrey Bogemans, as well as to the Premier. Please note that the procedure for sending emails is also online.

Be assured that Mr. Serge Beaudoin will not fail to inform you of future developments in the file.
